

A MESSAGE TO OUR PATIENTS

Fordingbridge Surgery hosted the Avon Valley Primary Care Network (AVPCN) Covid Vaccination Programme over the weekend of 23rd and 24th April, offering Spring boosters to the patients of Ringwood Medical Practice, Cornerways Medical Centre and Twin Oaks in addition to Fordingbridge Surgery patients.

On behalf of AVPCN, we would like to extend our thanks to all who attended for their patience during Saturday's clinic which did not progress as we expected it to, as we understand there were some significant delays. This was due to an unforeseen reduction in vaccinators on the day, and a clinical incident which required urgent medical attention to be provided by some of the clinical staff. We would also like to thank our amazing volunteers who, as always, did an amazing job in challenging circumstances.

We expect our next clinics to run much more smoothly, and all patients can help with this by arriving on time – not too early or too late- for their appointment to allow the administrators enough time to attend to the required paperwork, and for those who are able to walk the short distance from the Fordingbridge main town carpark to park there to release the onsite parking for those with Blue Badges or mobility issues.

We look forward to welcoming you for your boosters over the coming weeks.
